

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My Home - rural, scenic, peaceful

2. Do you have any concerns about new wind farms in Adams County?

Yes. We have enough

3. Do you have any concerns about new solar farms in Adams County?

Ugly. Trees to hide require water, lots of water

4. What aspects of wind farms should be regulated in Adams County?

5. What aspects of solar farms should be regulated in Adams County?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter? "non-participants who live in rural Adams Co."

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

Home

2. Do you have any concerns about new wind farms in Adams County?

we have enough

3. Do you have any concerns about new solar farms in Adams County?

4. What aspects of wind farms should be regulated in Adams County?

5. What aspects of solar farms should be regulated in Adams County?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Not the industry

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

my home farm - my view

2. Do you have any concerns about new wind farms in Adams County?

Yes - I am against taking our natural resources and destroying them by putting up wind farms with all of their concrete bases and towers.

Against ruining our landscape

Against the lies of green energy when there is nothing 'green' about them. We are just making ourselves dependent on China - making China rich.

3. Do you have any concerns about new solar farms in Adams County?

Yes - concerned about setbacks, batteries, damage to trees, loss of land, chemical runoff into our water, sun glare.

4. What aspects of wind farms should be regulated in Adams County?

- ① Distance should be based off of property line and not a residence
 - ② should be 1 mile from property line from those who don't want them
- ② Number of turbines should be limited
- ③ Height of windmills need regulated
- ④ Home-independent studies need conducted by 4 more turbines are approved or built in our county

5. What aspects of solar farms should be regulated in Adams County?

- Setbacks
- # & size
- moratoriums should be put in place
- sources of wildlife, water / chemical damage
- Long term studies are necessary for impact of wind solar farm implications could / would be for our county.

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Put on a list of the people of Adams County as well as:

Farm Bureau board

Adams County Renewable Energy Chapter Kick-Off and Public Input Meeting Monday, December 11th, 2023

Public Input Questions

1. What is your favorite place in Adams County?

my home

2. Do you have any concerns about new wind farms in Adams County?

Do not want any more. Have enough.
Want at least 1 mile from my property line. Five miles would be better.
Noise
Thunder shadow/light
Ice throw.
Cost to remove
Fire/lightning
Liability
Loss of land.
Effect on water in ground.

3. Do you have any concerns about new solar farms in Adams County?

Cost
Loss of land
Cost to remove.
Effect on water in ground.

4. What aspects of wind farms should be regulated in Adams County?

Setbacks - 1 mile from property line

allowed

cap height

no blinking lights unless a plane is near by

Participants must put 1st turbine 1200 ft from their

own home before building anymore.

Not allowed on good productive land.

If they don't live here
they can't build any.

5. What aspects of solar farms should be regulated in Adams County?

Setbacks

allowed

Not allowed on good productive land.

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

my home & farm.

2. Do you have any concerns about new wind farms in Adams County?

*Need wind farms to generate tax dollars
to help maintain our
infrastructure. We cannot be compared
to any other county in Adams County.
We need wind farms to help
generate more dollars for the
county. We need to be set*

3. Do you have any concerns about new solar farms in Adams County?

4. What aspects of wind farms should be regulated in Adams County?

5. What aspects of solar farms should be regulated in Adams County?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

Lake Zorra

2. Do you have any concerns about new wind farms in Adams County?

Yes, if wind turbines are eliminated
there will not be enough valuation to
fix roads + bridges

3. Do you have any concerns about new solar farms in Adams County?

No

4. What aspects of wind farms should be regulated in Adams County?

De Commissioning

5. What aspects of solar farms should be regulated in Adams County?

No

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Participating Landowners

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

Lake Superior Park

2. Do you have any concerns about new wind farms in Adams County?

See how they affect the landscape and the view from the road. Also, how they affect the property values. Need to be a decent looking farm.

3. Do you have any concerns about new solar farms in Adams County?

How they affect the landscape and the view from the road. Also, how they affect the property values. Need to be a decent looking farm.

4. What aspects of wind farms should be regulated in Adams County?

Solar
placement - 6000, 2000, 1000, 500, 250

5. What aspects of solar farms should be regulated in Adams County?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Everyone that is involved in the process so everyone is included

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

my home/property

2. Do you have any concerns about new wind farms in Adams County?

*yes, I do not want any more at all.
We have enough. They are destroying our
farmland. No more!*

3. Do you have any concerns about new solar farms in Adams County?

*yes, I do not want any at all! They
are using up too much productive farmland!
This is sad - we are agricultural - this is
our heritage.*

cap in height! I like a referendum - we to vote on No more at all!

4. What aspects of wind farms should be regulated in Adams County?

There needs to be a new ordinance written from the property line, need safety - need ADLS lighting, need safety from fires. Need decommissioning. Need a limit of total (we have 121 so far) No more! They should not be allowed by your neighbors. We are non-participants. They should never affect the non-participants! They should not be allowed in our county as we do not want them at all. Noise limits.

5. What aspects of solar farms should be regulated in Adams County?

There needs to be more time to learn about them. We need to see proof that they are safe. They are dangerous. We do not want any solar at all. Needs to be studied more.

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

you need ask every single person - in our county.

Require independent studies - on all different animals, soil, types, archeological studies, bat, eagles,

Jeanne Jackson, Adams County Priceless Land Coalition 641-202-1555.

Could we have a group of ~~peo~~ people who are a cross-section of our community.

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

Being on the farm in my home

2. Do you have any concerns about new wind farms in Adams County?

- Yes, many
- (1) No public input
 - (2) setbacks need increased to 3250 ft. from property line
 - (3) No control over # of turbines
 - (4) No concern over non participants
 - (5) Decrease in property value
 - (6) Destroying neighborhoods

3. Do you have any concerns about new solar farms in Adams County?

Yes,
Destroying too much valuable property (farmland)

4. What aspects of wind farms should be regulated in Adams County?

- (1.) Setback of 3250 from property line
- (2.) Decommissioning of all turbines
- (3.) # of turbines determined by public
- (4.) Cap on height & retrofiting

we need a referendum vote on new and number of turbines

5. What aspects of solar farms should be regulated in Adams County?

- (1.) # of acres being used
- (2.) Decommissioning of all panels

6. Who are the stakeholders we should interview for the Renewable Energy

Chapter? Any and ~~at~~ all the constituents of Adams county

* Adams County Priceless Land Coalition
Jeanne Jackson 641-202-1555

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

Rural landscape - my home, our local scenery

2. Do you have any concerns about new wind farms in Adams County?

Absolutely -

- Diminishing beauty of rural landscape
- noise impact on wildlife
- damage to landscape - dirt, oil leaks, water tank shed
- safety concerns - towers will stay for long time
- worse than they are depicted by the media
- noise
- Blowing dirt

3. Do you have any concerns about new solar farms in Adams County?

- beauty of rural landscape
- water flow / erosion
- water table
-

4. What aspects of wind farms should be regulated in Adams County?

- distance from homes (set back)
- number we allow in our vicinity
- height
- removal/demolition - airports? lakes & things?
- ~~land use?~~
- fence line vs. boundary set back

5. What aspects of solar farms should be regulated in Adams County?

- number allowed
- siting/demolition - airports? lakes & things?
- set back fence line vs. boundary set back

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

7

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My Home Farm

2. Do you have any concerns about new wind farms in Adams County?

Yes

3. Do you have any concerns about new solar farms in Adams County?

Not as much, easier to tear out when needed.

4. What aspects of wind farms should be regulated in Adams County?

Tower height

Tower number cap

Set back based on height

Why do surrounding counties cap at 20 and

Adams Co need 140+

Grid

Taking best farm land
for easy money
landowner + taxes

Bridge budget to be defined

5. What aspects of solar farms should be regulated in Adams County?

Not sure

Taking the solar farms and

Needs regulated to bills

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My home, there is no place better to live,
I have lived other places but come back, I love
to live here.

2. Do you have any concerns about new wind farms in Adams County?

Impact on my homes value
'time number'
I can now see over 130 ^{and more come} rows
of turbines
change to the natural wind patterns
Do they help decrease local energy cost?

3. Do you have any concerns about new solar farms in Adams County?

recyclable - impact on area from
extra heat generation - storm water
run off - wild life patterns

4. What aspects of wind farms should be regulated in Adams County?

number lighting
height
property setback from non-paved
location in county
no increase in height when
retooling

5. What aspects of solar farms should be regulated in Adams County?

size, location, recycling
environmental impact
water flow patterns + quality impact
decommissioning
will it affect local energy cost

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

landowners - residents
local insurance agents - Allstate, ...
farmers - local farms

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My Farm-fields, pastures, house yard, barn yard

2. Do you have any concerns about new wind farms in Adams County?

They are being built TOO close to dwellings!

3. Do you have any concerns about new solar farms in Adams County?

Using up TOO much AG/land

4. What aspects of wind farms should be regulated in Adams County?

Setbacks from dwellings, Cap on how many are built in county

5. What aspects of solar farms should be regulated in Adams County?

Amount of AG Land used.

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Land owners / taxpayers

Neither of these are
green energy

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

my farm - pasture yard fields
-home open spaces

2. Do you have any concerns about new wind farms in Adams County?

Too many - Enough is Enough
WE DON'T WANT DOUBLE QUANTITY
Sound lights safety health infrasound
value of homes decreasing A.D.L.S.
wildlife disturbances

Property
LINES

3. Do you have any concerns about new solar farms in Adams County?

using too much land
leaching of chemicals in soil
fire hazards
glare of panels
wildlife
water quality -run off

4. What aspects of wind farms should be regulated in Adams County?

1 mile setbacks from property lines Enough is Enough
Sound 40 dba or less " No expansion
Quantity - 121 - enough
Cap on Height - lower than 400 ft.
Decommissioning - land will never be
property lines - the same

5. What aspects of solar farms should be regulated in Adams County?

acres should be limited to less than
20 acres & we already have 20 acres
no expansion

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

US - land owners & tax payers

Adams, Priceless Land Coalition
county

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My Land
Views with no wind turbines

2. Do you have any concerns about new wind farms in Adams County?

They are a eye sore, cause
health problems, use priceless land
& then the valuation of the land goes
down.
Don't need anymore "

3. Do you have any concerns about new solar farms in Adams County?

Position of them
Taking up farm land

4. What aspects of wind farms should be regulated in Adams County?

Height Cap
Distance from a home
Decommissioning
Flickering lights at night
of turbines
Archaeology Studies

5. What aspects of solar farms should be regulated in Adams County?

Size
Location

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Any landowner or acreage owner

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

2. Do you have any concerns about new wind farms in Adams County?

The hypocrisy about set backs from different things

3. Do you have any concerns about new solar farms in Adams County?

4. What aspects of wind farms should be regulated in Adams County?

impact on neighbors

5. What aspects of solar farms should be regulated in Adams County?

impact on individuals

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Voters

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

rural area where I don't see
blinking red lights

2. Do you have any concerns about new wind farms in Adams County?

Yes
If tax revenues increase how will this
help residents besides roads

3. Do you have any concerns about new solar farms in Adams County?

Yes

4. What aspects of wind farms should be regulated in Adams County?

total number in county

decommissioning rules

Set backs

Can county residents get benefit from energy generated to reduce electric costs

5. What aspects of solar farms should be regulated in Adams County?

number of acres sacrificed from ag land

money for decommissioning

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

land owners

residents

City government

hunters - tourism industry -

schools

all taxing authorities

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My home

2. Do you have any concerns about new wind farms in Adams County?

Yes

3. Do you have any concerns about new solar farms in Adams County?

Yes

4. What aspects of wind farms should be regulated in Adams County?

Total number of wind turbines, set-back requirements
making sure all conservation areas + homes, municipal
facilities are protected, must have a de-commissioning
plan for future, Loss of property values

5. What aspects of solar farms should be regulated in Adams County?

location, placement, de-commissioning plan
total area/number allowed.

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Realtors, Conservation Director

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

in the country

2. Do you have any concerns about new wind farms in Adams County?

*Yes I don't want any
we already have enough*

3. Do you have any concerns about new solar farms in Adams County?

No

4. What aspects of wind farms should be regulated in Adams County?

I don't want any wind farms.

5. What aspects of solar farms should be regulated in Adams County?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

- My house and acreage
- Lake Icaria

2. Do you have any concerns about new wind farms in Adams County?

- Reports of some people being bothered by the sound they make and by flashing lights at night.
- High cost of decommissioning worn out turbines - I have read it can cost around \$500,000 - It seems that the companies that put them up should be responsible for that as cost would probably be prohibitive for most landowners

3. Do you have any concerns about new solar farms in Adams County?

- How quickly do solar panels wear out? When they wear out, is decommissioning them difficult or costly? Can materials be recycled?
- They could be an eyesore
- Fire batteries connected with solar farms in danger of catching fire or other hazards
- Loss of agricultural land

V

4. What aspects of wind farms should be regulated in Adams County?

- distance from houses of nonparticipating property owners
- Decommissioning

5. What aspects of solar farms should be regulated in Adams County?

- distance from nonparticipating property owners
- Decommissioning

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

*Lake Scario
Carbon valley*

2. Do you have any concerns about new wind farms in Adams County?

yes!

3. Do you have any concerns about new solar farms in Adams County?

*yes. they degrade the visual attractiveness of our county
Noise*

4. What aspects of wind farms should be regulated in Adams County?

height
noise level
setback
environmental impact on wildlife and people
total number
wind energy company to be responsible for removal and recycling when replaced or taken out of service.
wind energy company to be ^{financially} responsible for ~~to~~ road upgrades, repairs, including bridges
consider compensation for people whose mental/physical health is affected

5. What aspects of solar farms should be regulated in Adams County?

location — they are an eyesore.
decommissioning
noise

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

the ag Land

2. Do you have any concerns about new wind farms in Adams County?

yes don't want anymore!

3. Do you have any concerns about new solar farms in Adams County?

No

4. What aspects of wind farms should be regulated in Adams County?

all aspects

5. What aspects of solar farms should be regulated in Adams County?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

all residents of Adams Co

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

Ag land & home

2. Do you have any concerns about new wind farms in Adams County?

Many

3. Do you have any concerns about new solar farms in Adams County?

No

4. What aspects of wind farms should be regulated in Adams County?

No further wind farms

5. What aspects of solar farms should be regulated in Adams County?

only in small
designated area

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Every Adams Co resident

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

HOME & FARM

2. Do you have any concerns about new wind farms in Adams County?

THAT ONE MIGHT TAKE AWAY FROM
EXISTING LAND VALUES

3. Do you have any concerns about new solar farms in Adams County?

NO MORE

4. What aspects of wind farms should be regulated in Adams County?

SET BACK
SHOULD
Measure from
Property LINE
Flight
INCREASE physical DISTANCE

5. What aspects of solar farms should be regulated in Adams County?

LOCATION

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

ALL CITIZENS AFFECTED

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

I love the beautiful vistas in Adams County. I appreciate being able to see eagles, owls, monarch butterflies, indigo buntings, ~~owls~~, cardinals, deer, etc. We hunted to get away from turbine lights to see the northern lights this summer.

2. Do you have any concerns about new wind farms in Adams County?

I have deeply serious concerns.

① We have enough. 121 is more than enough. 250 will ruin our fields and vistas.

② It is insulting to measure from people's homes to get what you want for monetary gain.

③ I have health concerns, safety concerns,

3. Do you have any concerns about new solar farms in Adams County?

fairness concerns, disposal concerns. We need our agriculture land for agriculture.

I have archeological concerns. I have auditory concerns.

- Shadow flicker.

I have the same concerns for solar.

some of

Bees; earth worms tiling; all wildlife
decommissioning concerns

4. What aspects of wind farms should be regulated in Adams County?

I listed many of them. STOP ENOUGH
① numbers limited
② setbacks from property lines!!!
③ red lights off
④ auditory monitoring
⑤ wildlife & archeology studies done by independent firm & shared
⑥ cap height not wind co. agenda

5. What aspects of solar farms should be regulated in Adams County?

Think agriculture STOP THEM
Think tourism NONE
Think drawing in & pulling in new families
Leave it ALL alone!

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

VOTERS - Put it up to a vote!!!
County citizens & county land owners

PLEASE out of county energy co employees should stay out of it.

Smorging is insulting.

I think: go away. Warren Buffett in 2014 said: wind (solar?) energy makes no sense without the subsidies. We pay to reap a pittance. STOP.

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

wide open spaces w/ no windmills
in site or solar farms

2. Do you have any concerns about new wind farms in Adams County?

no electrical grid to handle it
it goes elsewhere

3. Do you have any concerns about new solar farms in Adams County?

take up land for food or timber

4. What aspects of wind farms should be regulated in Adams County?

setbacks
of them
animal habitation

5. What aspects of solar farms should be regulated in Adams County?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

{ all the voters are a stakeholder —
put it up for vote!

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

anywhere there's no wind turbines

2. Do you have any concerns about new wind farms in Adams County?

Yes, turbines are unsightly, ~~and~~ we have enough now! Let's table this for say 2-3 years, + see how those work out! Then look at it again!! This may be a passing fad!!

3. Do you have any concerns about new solar farms in Adams County?

Yes, they take up more ag land. No more land is available, why take more out of production?? I like to eat.

4. What aspects of wind farms should be regulated in Adams County?

This is all a futile endeavor

5. What aspects of solar farms should be regulated in Adams County?

Same as above

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

all county residents

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

The whole of Adams Co plus my home

2. Do you have any concerns about new wind farms in Adams County?

*Too many not far enough away from
property lines wildlife going away
love wildlife, no growth
limit Turbines Property Value
will fall around Turbines all the
scattered they put off.*

3. Do you have any concerns about new solar farms in Adams County?

*Not as much as wind Turbines
would rather see small panels on homes*

4. What aspects of wind farms should be regulated in Adams County?

amount of turbines
height of turbines
~~to~~ 1 mile from property line
Cap height and width

5. What aspects of solar farms should be regulated in Adams County?

noise
animal paths
replacement of panels

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

property owners
all residents

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My home Jasper Township
Lake Icaria / + Bender.

Farm/land in our county

It was the view until the windmills/red flickering lights ruined to the south + north

2. Do you have any concerns about new wind farms in Adams County?

Value of farm land
value of home
neighbors putting up
ruining the view

There are too many in Adams County now

They are ugly + LOUD

blinking lights - annoying

less crop production around the windmill area
Taking the best farmland

What about the end of life of these windmills - who removes - recycle?

who pays

3. Do you have any concerns about new solar farms in Adams County?

We do not need any more

waste of farm/land,

Impact on wildlife

are panels recyclable?

4. What aspects of wind farms should be regulated in Adams County?

No more we have too many now.
Height - setback height should include not only base but also blade

5. What aspects of solar farms should be regulated in Adams County?

height
setback
views
number of
property value
farmland crop production

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Farmers
People wanting to move into RURAL Iowa
Farms next to places that are thinking to put up windmill or
wind farm —
Conservation people to evaluate effect on animals
Adams County needs to vote —
Planning Commission need to LISTEN and act on our concerns

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My farm + my entire County.

2. Do you have any concerns about new wind farms in Adams County?

- Distance + regulations from farmsteads,*
- Destroy agriculture productive land*

3. Do you have any concerns about new solar farms in Adams County?

- No*
- Think they do less harm down the road*

4. What aspects of wind farms should be regulated in Adams County?

- Setbacks
- regulations
- noise
- wild life
- Agriculture Animals
- cap height

5. What aspects of solar farms should be regulated in Adams County?

- Same as Wind farms

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

- The people of the county

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

- my family farm that has been in our family for over 50 years
- It has beautiful views w/ no wind turbines!

2. Do you have any concerns about new wind farms in Adams County?

- We don't need anymore period!
- No more!
- the height ^{cap} of the new turbines
- distance set backs from people's homes
- property values that have turbines close to them (they lose value)

3. Do you have any concerns about new solar farms in Adams County?

- they are not effective!
- height, noise regulations
- size regulations
- Just say NO!

4. What aspects of wind farms should be regulated in Adams County?

- everything should be regulated!
- height cap
- set backs
- lights (red blinking)
- noise
- no body is going to move here if we add more turbines, no body wants to buy property w/ a

5. What aspects of solar farms should be regulated in Adams County? Wind turbine view!

Same as above

- the noise is awful, I have friends that live in other states that have solar farms close to them & they say they are SO loud!

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

- Since the BOS doesn't allow public comments at meetings anymore, why are they even discussing more turbines & how solar farms with over 950 people signing a petition against them?
- all the people in Adams Co!
- make the survey open to everyone!

**Adams County Renewable Energy Chapter

The citizens and landowners of rural Adams County

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

My home. Beautiful views that are slowly being diminished by ~~the~~ wind turbines. The flashing red lights that now surround my home. We now can see multiple wind farms from our home. Depressing & sad.

2. Do you have any concerns about new wind farms in Adams County?

YES!

Setbacks not far enough from neighboring property. Windmills are actually sitting on top of homes
Flashing lights everywhere!
Loss of precious farmland!
Noise!
Wildlife - Diminished.
No Recycling Plan!

3. Do you have any concerns about new solar farms in Adams County?

Loss of farmland

4. What aspects of wind farms should be regulated in Adams County?

Number of turbines
Flashing or red lights
Setbacks from property lines
Noise
Recycling - Please think ahead

5. What aspects of solar farms should be regulated in Adams County?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Dept of Natural Resources
Wildlife Entities

**Adams County Renewable Energy Chapter
Kick-Off and Public Input Meeting
Monday, December 11th, 2023**

Public Input Questions

1. What is your favorite place in Adams County?

my HOME FRONT
porch where I go
EVERY NITE TO ENJOY
God's beauty and pray

30
I have invested time & money for this view over yrs.

2. Do you have any concerns about new wind farms in Adams County?

I spend \$21,000
on a home improvement
property plan.

Every NITE!
I can't have snow/rain/fog

3. Do you have any concerns about new solar farms in Adams County?

It is put in
~~waste basket~~ as ~~my~~
windmill/solar will reduce
my property value

loss of control, a ripoff

I am hamstrung in my ability to invest or my kids

to our kids

Need airplane deflection system started on existing turbines ASAP

4. What aspects of wind farms should be regulated in Adams County?

We have given up enough for green energy in Adams. MidAmerica has met 2023 goals.

Enough tears of our neighbors as more turbines

5. What aspects of solar farms should be regulated in Adams County?

Our Current Comp PLANN promotes preserving AG land + Non industrial scatter - Green energy does neither

Microbrans kill off grass in their close view shed from head?

6. Who are the stakeholders we should interview for the Renewable Energy Chapter?

Priceless hard Coalition that did the hard gritty work to get signatures and talk to neighbors -
