Matt Garwood updated the board on the Prescott Windfarm project status. They are still operating and constructing. Four wind turbines were knocked over by a tornado in May which had not come online yet and construction will continue on these under the 2023 building permits. A note will be placed on the building permits about the continuation. Nine wind turbines remain standing and are expected to be operational in 3Q 2024. Local crews performed debris cleanup and a professional demolition/cleanup crew has been contracted and environmental cleanup and testing contracted as well. The DNR has been to the site and will be interested in any soil contamination that has occurred which would then need to be removed and replaced.

Maynes moved, seconded by Hardisty to appoint Ben Mullen as the Planning and Zoning Coordinator. All supervisors voted aye. Motion carried. Ben Mullen presented how the county could tie into Beacon and provide additional services. Also, he had discussed the position with another assessor in the state who does the same thing and explained how they did things and the costs involved.
