The following are the questions and answers that were presented at the 16 October 2023 P&Z Commission meeting.

1. Q. *How much time has been given to the wind turbine companies?* Answer, the P&Z Board asked Invenergy to do a presentation on setbacks, this presentation was approximately 20 minutes which included questions and answer from the P&Z Board.
2. Q. *How many members of the P&Z board and Board of Supervisors already have them or are considering them?* Answer, as Chair of the P&Z Board I don't feel it appropriate to answer on behalf of other members or the BOS on this, as it is a personal matter with each of them.
3. Q. *How many turbines is it going to take to get the tax base?* Answer, This would be a decision from the Board of Supervisors, the P&Z Board duties are to offer suggestions to the B.O.S. regarding the entire ordinance regarding Renewable Energy.
4. Q. *Will the committee do a survey regarding how close they can be built to a home?* The P&Z Board will do its due diligence regarding setbacks. We have heard several suggestions from public input regarding setbacks and will take this into consideration.
